

My Origin Story

Previously

- FAA Weather Observer
- Broadcast Meteorologist
- Software Consultant
- IT Director
- Associate Security Consultant
- Security Consultant

Overview

- Knowing your audience
- Voice type (passive vs. active)
- Elements of a good report
- Pros and Cons of graphical communication
- Danger terms

Typical Report Audience

- Executives
- Middle Management
- Technical
- Other
 - QSAs
 - Clients of clients

Communication Styles

- External Processor
 - Long and flowy
 - Extra details
- Internal Processor
 - To the point
 - Necessary details only
- In the Middle

Passive Voice

- Weakens communication
- Use only in certain situations

Example

The road was crossed by the chicken.

Active Voice

- Preferred voice
- Effectively communicates to many styles
- Clearly lays out subject, verb(s), and object

Example

The chicken crossed the road.

Report Elements

- Title Page
- Legal Jargon
- Table of Contents
- Introduction
- Executive Summary
- Management Summary
- Narrative
- Technical Finding Details
- Appendix

Graphical Communication

Pros

- More with less
- Emphasize with colors

Cons

- Can overuse
- Vuln scan look

Recommended Use

- Executive Summary
- Management Summary
- Risk Rating

Danger Words & Phrases

Danger Items

- 1. Leakage
- 2. Issues
- 3. Problems
- 4. Use of first person
- 5. Blaming/Shaming
- 6. Use of Should/Could/Would

Professional Alternatives

- 1. Disclosure
- 2. Gaps
- 3. Specific configurations
- 4. Use third person
- 5. Observations/Discoveries
- 6. Make recommendations
